If there are others who believe the installation of a public swimming pool in the City Park will be beneficial to the young of the city especially, including both boys and girls, please write the News about it.

The following taken from the left  
 hand column of the *Clarendon  
 News* shows that Joe Warren, edit-  
 or and publisher of that excellent pa-  
 per is heartily in line with the Pan-  
 handle Farmers' Congress in Aus-  
 tin August 24-25, inclusive:-

"Edison Winn of Canyon, special  
 representative of the State Water-  
 Reclamation and Marketing department  
 and A. R. Short of Wichita Falls,  
 agricultural agent for the Fort Worth  
 & Denver railroad, were in Clarendon  
 yesterday for the purpose of the or-  
 ganizing a Farmers' Institute. This  
 article is written before a report of  
 the meeting has reached us, but we  
 hope to have one in another place in  
 this issue. The News takes this op-  
 portunity to say, however, that for some  
 time a large majority of our people  
 have failed to give the time and at-  
 tention to matters along this line  
 that they should. Well advertised  
 meetings have been almost entirely

The following comprehensive letter  
written to the editor of the News,  
was declined by the writer and to be  
for publication, but it is an well  
phrased and an article too that with  
the omission of the name Liberty is  
being taken to print it.

Answering, Tex. Aug. 1 1916.

Pepto-Lax is a liquid laxative—mild and effective. It soothes the liver, increases the bile, does not grip and acts as a general tonic to the whole system. Adds nature to stool and purify the blood—was a laxative tonic for summer Pepto-Lax has no equal. What was good enough for my father is good enough for me. Never applied with more than the use of Pepto-Lax for the liver. An old time tried remedy. Get a bottle, take a dose tonight and you will be much better you feel it all day long.

NO MATTER WHAT YOUR VIEWS ON THIS SUBJECT, GO AND OBTAIN FOOD FOR  
THOUGHT AND ARGUMENT IN THE GREAT

A Chicago Critic says:—"You will never know what modern warfare is until you have seen Durborough's Great Film 'ON THE FIRING LINE WITH THE GERMANS.' "

You will see the belching artillery behind the lines, protecting the advance of the troops far ahead—see the thousands spring up from field after field—miles upon miles of men. You see them charge under the screaming hail of their own shells. You see this human tidal wave break over the enemies' trenches with its glittering crest of bayonets sweeping forward.

These original Durborough films, made during the invasion of Russian-Poland by the Germans, will be shown at

THE

# Virginia Theatre

## Afternoon and Night

## Monday and Tuesday, Aug. 7th and 8th

The great Durborough films consist of more than 8,500 feet of actual happenings stretching over a period of seven months—from the very start of the German invasion of Russian-Poland up to the last retreat of the Russians. W. Durborough, war photographer, accompanied the Kaiser's army during the entire Russian-Poland campaign and made much of the film in German first, second and third line trenches and from German war aeroplanes.

Battles, bombardments, bayonet charges and the like follow in quick rotation. The instruments of modern warfare—machine guns, Zeppelins, armored automobiles, war aeroplanes, giant guns—are shown in actual operation. It is by far the greatest war film that has yet been brought to this country, and comes to Amarillo, auspices Daily News. It played to capacity crowds for more than one month at the Fine Arts Theatre, Chicago.
